

Missouri's Foundation For Child Abuse Prevention

Children's Trust Fund
Grant Programs
Subject: Rule on Indirect Costs

Because of the limited amount of funds available through the Children's Trust Fund (CTF) grant programs, the amount of funds allowable for indirect costs is capped at 5% of the total contract budget. While CTF will consider funding indirect costs up to 5% of the total contract budget, each grant application is considered not only on its individual merit, but also within the context of overall funds available. Therefore, CTF reserves the right to determine funding for indirect costs (0-5%) and this determination is not negotiable.
