

Missouri Home Visiting Referral System

CRIS LINK

Early Childhood (Prenatal to Five)

The CRIS Link is a one-stop shop for anyone to make a referral for home visiting services **(prenatal to five)** in Missouri. The CRIS Link connects users to one of five regional referral networks — called a Coordinated Referral & Intake System (CRIS) — to submit a referral based on their location.

Each CRIS network is led by a collective impact site that manages participating home visiting programs and models within its region.

Helps agencies manage capacity

Matches families with the best program for their needs and location

more about. . .

Missouri's Home Visiting Referral System

HOW DOES IT WORK?

- ✓ Visit: ctf4kids.org/crislink
- ✓ Select the family's county using the CRIS Link
- ✓ Submit a referral through the regional CRIS Network for the county
- ✓ The regional CRIS will assign the family to an available program based on their needs and eligibility

✓ Can supplement other referral sources

No need to remember:

- coverage
- eligibility
- capacity
