

Better Outcomes *for* LIFE.

HOME VISITING

Early Childhood (Prenatal to Five)

Home visiting is a **FREE, voluntary service** where a home visitor meets with you and your family to help with things like early education (school readiness), healthy child and brain development, strategies for managing different stages and milestones, appointments, screenings and more!

Babies and children who receive home visiting (prenatal to age 5) are more likely to:

-  Be born full term & at a healthy weight
-  Achieve healthy growth & brain development
-  Perform better in school
-  Have better physical, mental and behavioral health
-  Have greater **success in life**
