

Trust. Support. Advocacy.

HOME VISITING

Meets you where you are!

Home visiting is a **FREE, voluntary service** where a home visitor meets with you and your family to help with parenting, setting goals, accessing resources, maternal and child health, education and support.

Mothers and families who receive home visiting (prenatal to age 5) are more likely to have:

-  Safe, healthy births
-  Improved physical & mental health outcomes
-  Necessary prenatal & postpartum support
-  Access to concrete support for immediate needs
-  Healthy co-parenting & communication skills
